## PROJECTS

### \*My Portfolio Website

Developed a dynamic portfolio website showcasing projects, skills, and achievements using HTML, CSS, JavaScript, Bootstrap5, and React. Implemented responsive design principles to ensure compatibility across various devices and browsers. Integrated interactive elements and animations to enhance user engagement and navigation.

### \*E-Commerce Food Website

Designed and developed a responsive e-commerce food website using HTML, CSS, JavaScript, Bootstrap5, and React. Implemented a user-friendly interface with intuitive navigation, showcasing a variety of food products categorized for easy browsing. Integrated a secure payment gateway and shopping cart functionality using JavaScript for enhanced user experience and seamless transactions.

### \*Calculator Web App

Created a fully functional calculator web application using HTML, CSS, and JavaScript. Designed a responsive user interface with CSS for styling and layout, ensuring compatibility across different devices and screen sizes. Implemented JavaScript for interactive functionality, including arithmetic operations (addition, subtraction, multiplication, division), decimal point handling, and clear/reset functions.
